Experience

Software Developer | Worcester Public Schools

Feb '17 - Present

- Full-stack developer: maintain, design and create secure, database-driven web applications for safe, rapid and real time information sharing using SQL Server and Visual Studio.
- Completely redesigned the Transportation app by adding an admin portal, integrating the USPS address verification API, and making it responsive.
- Created an iPad optimized visitor sign-in app for a school which reduced paper usage and gave them accurate reporting on visitors.
- Maintain databases and complete ad hoc data requests.
- Participate in regular meetings with development team discussing best practices and new technologies.

Teaching Fellow | CodeSquad

Apr '19 - Present

- Develop and teach lesson plans for our full-stack JavaScript bootcamp.
- Grade student homework, providing brief and thoughtful feedback.
- Mentor students to ensure their success in the program and their new career.

Freelance WordPress Developer

Jan '19 - Present

- Hoffa BBQ: Design, develop, & host hoffabbq.com.
- Future Focus Media: Design, develop, & host cycj.us.
- Tasks for Transit: Designed & developed tasksfortransit.org.
- Gustin Advertising: Developed enchantedmem.com.
- Greater Worcester Community Foundation: Redesigned & developed leadershipworcester.com. Hosting & ongoing maintenance for the site.

Database Analyst | Wellesley Information Services

May '15 - Feb '17

- Database manager: worked daily with SQL Server, Access, and StrongMail to complete a wide variety of ad hoc data requests.
- Collaborated with marketers to make data pulling more user friendly.
- Created technical how-to documents.
- Trained interns to assist with daily data requests.
- Worked independently after less than 1 month of starting.
- Recognized for going the extra mile for attaining critical feedback by communicating with our event attendees.
- Co-captain of the company softball team WISteria.
